

# Lyra Cloud Dashboard

## What is Lyra?

Lyra is a fully digital, intelligent, cloud-based solution, designed to provide individually tailored care and support in any setting. The Lyra platform is unique in its kind and creates a secure, flexible and quickly installed solution, with no need for any hard wiring. Integrated wireless press and play telecare and telehealth sensors ensure we can deliver bespoke solutions to meet the changing needs of users. Lyra is data driven, enabling our partners to be more proactive and efficient in delivering care, promoting independence and improving quality of life.

## Who is Lyra for?

Lyra is an integrated digital solution that can be used in any care environment, including nursing and care homes, assisted living and to support someone living in their own home. Everon builds bespoke, digital, wireless solutions that can be adapted to the individual needs of each setting and each user.

### • Key Benefits (For the user)

#### Bespoke

Wide range of press and play accessories to perfectly suit individual needs

#### Rapid

Easy to use call buttons for quick assistance and support
